Jeannie Haddaway-Riccio, Secretary

---

The Department of Natural Resources - Abandoned Boat and Debris Program is updating its contractor database, as well as the solicitation process for projects expecting the lowest bid to be under \$15,000.00. **These Requests for Bid will no longer be mailed out.** The Department is creating a bulk e-mail contractor list in which a bulk e-mail bid board request will be e-mailed out where the company can then request through e-mail, a bid board package - similar to the system set up on EMaryland Marketplace Advantage (EMMA). It should be noted that almost all bidding, the contractor must have both a Marine Contractors License and be a Registered Small Business in the State of Maryland to qualify. In order to create this list the Department is requesting the following information from your company:
