Introduction

2017 Annual Program

The Queen Anne's County Annual Program is a detailed refinement of the approved six-year Capital Improvement Program. The Capital Improvement Program is a medium range scheduling program for implementation of Park and Open Space elements of local land use plans and the County's Land Preservation and Recreation Plan. Annual evaluations utilizing current growth trends, deficiencies, funding sources, funding levels and equitable geographic distribution of funds are considered in defining the annual expenditures for acquisition of new lands and development of new facilities.

Because the County currently exceeds the State Standards regarding land acquisition goals, emphasis for the next several years will be on land development. Proposed sites are selected based on currently approved plans to provide a broad spectrum of active and passive facilities. This year our focus will again be on addressing safety and public access issues. In addition, efforts will be made to provide greater public access to our County's many natural resource areas.
